Ride at night?
USE A LIGHT

Using a headlight and rear reflector allows you
to be seen by other drivers. And it's the law.

A headlight and rear lamp also keeps you visible during
reduced visibility conditions, including rain, snow, or fog.
Wear reflective clothing for maximum visibility.

BE SAFE - BE SEEN
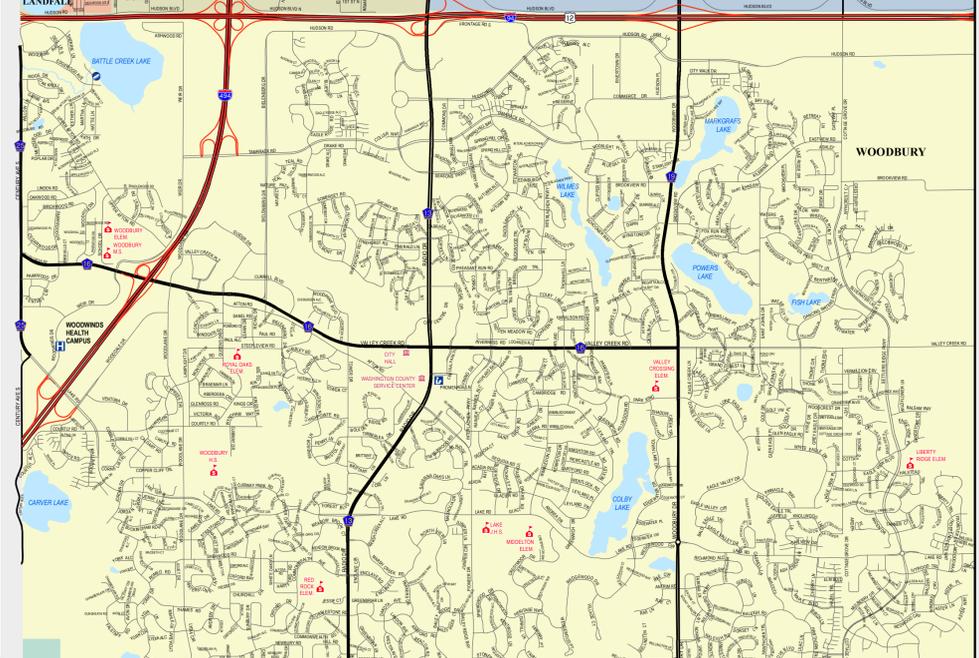

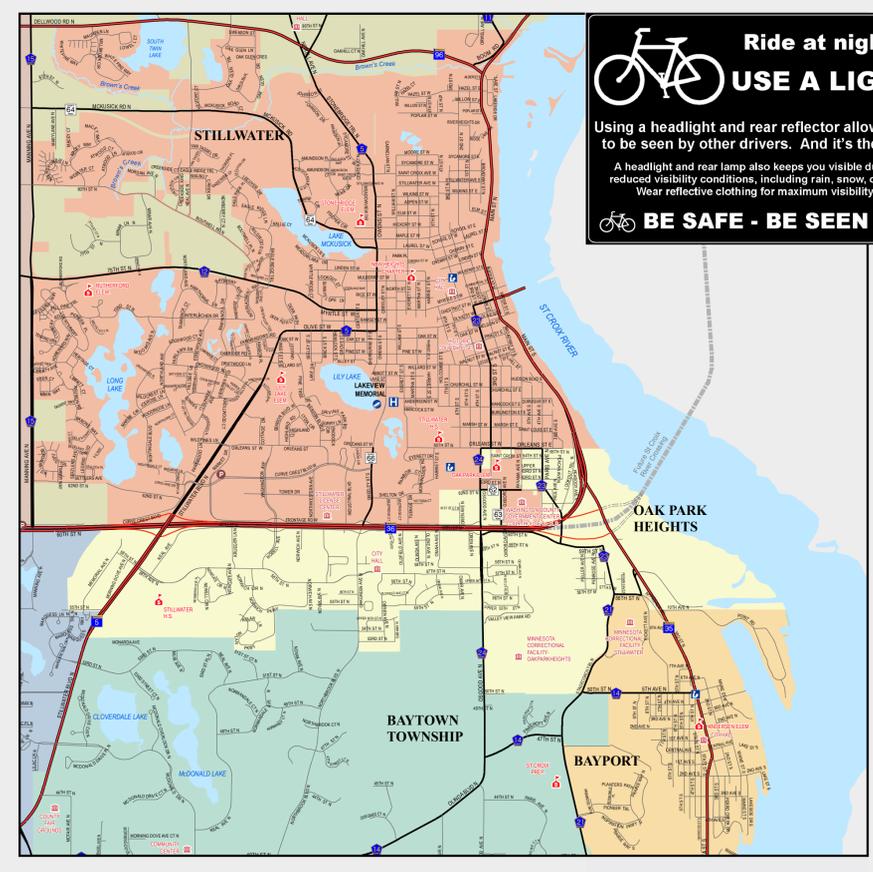

Washington County Roundabout U

Roundabouts are one type of intersection where traffic
flows around a circular central island, and are increasingly
used as a safer, more efficient alternative to traffic signals.
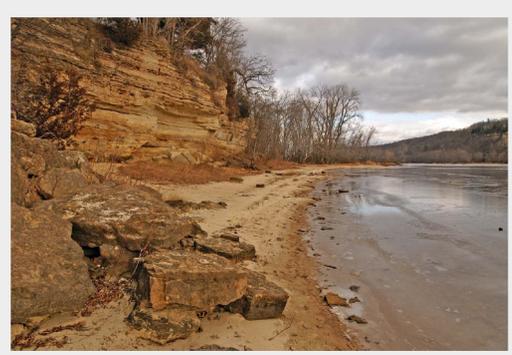

When you approach a roundabout:
- Some roundabouts include multiple lanes. You must
choose the proper lane BEFORE entering based on
the turn you intend to make. As with any other
intersection, drivers wishing to turn left through the
roundabout must keep to the left as they approach.
- Slow down and prepare to yield as you approach.
- Entering traffic must YIELD. Wait at the YIELD sign
until all traffic from the left is clear. Never attempt to
enter alongside cross traffic, as they may be exiting.
- Keep to the right of the center island as you enter.
- Do not change lanes or stop within a roundabout.
- Yield to pedestrians within any crosswalk.
