

DISCUSSION QUESTIONS

- **What community do you live in?**
- **Do you use transportation services (anything besides driving your personal car) in Washington County? Which ones?**

Strengths

If you currently use a transit service, what is working well for you?

In general, who does Washington County's transit services work well for?

What about current transit services would you not want to change?

Weaknesses

Who is not served well by transit today?

Would you benefit from transit services that do not exist today? If so, please share.

Are you ever unable to get somewhere within your community, or beyond, because you don't have a way to get there? What kept you from being able to travel?

Opportunities

What would make you consider using a transportation service?

What are the most important destinations you'd like to get to with transit? Please be as specific as possible (maps will be available). Some examples are:

- **Workplaces (including schools, colleges, or training centers)**
- **Healthcare (Clinic, hospital, Urgent Care, dentist, etc.)**
- **Services (Grocery store, laundromat, barbershop or salon, daycare, bank, etc.)**
- **Residences (Home, homes of family members, friends, faith community, places of worship, etc.)**

Priorities and Goals

How do you think Washington County should prioritize future transit investments? What should Washington County provide more funding to support? What service is your number one priority?

- **General Public Dial-a-Ride Service (Transit Link, other specific names for services)**
- **Metro Micro**
- **Local Bus Service, Circulator Service**
- **Regional Bus Services (Bus Rapid Transit, Express Bus Service)**
- **Hiring staff to help people navigate the existing transit system**
- **Making it easier to bike and walk**
- **Other?**

What does a successful transportation mean to you?

“To be successful supporting transit in Washington County, the County should.....”

Or “Washington County would be successful in improving transportation options, if they ---”
