SURVEY RESPONSES

PUBLIC FEEDBACK

The general sentiment from attendees was positive, with many pleased that Washington County was beginning to address safety concerns along the corridor. The **most common concern** voiced by attendees was the **current safety and accessibility of Ideal Avenue**, particularly how difficult it is to enter and exit Ideal Avenue from the cross streets. See the next page to review all comments left on the map.

OPEN HOUSE 1 ENGAGEMENT SUMMARY

MAPPING ACTIVITY RESULTS

Participants were encouraged to fill out comment forms and share their feedback via sticky notes placed directly on a corridor map. Residents were asked to share how they use Ideal Avenue, if they have any specific concerns with the area, and if they have any desired improvement ideas.
